

# **Anthroposophical Study Group**

Facilitated by  
**Julia Kubler**

**Fridays Monthly at LIFE-FORCE**

Rainbow Room 7.15pm – 8.45pm

Cost £10.00 per session

- Reading and investigating the extensive works of Rudolph Steiner.
- Group participants are required to read and study a chapter a month of the current chosen book identifying any questions or aspects which resonate and to raise these at appropriate times during the meeting.
- The group takes the form of an interactive session by calling on personal experiences or relating aspects observed in the media which pertain to the subject on hand.
- This format aims to give the group and the spiritual world (our co-creators) a deeper insight into applied anthroposophy leading to an enhancement of our understanding of the meaning of our existence and perhaps an ability to further identify who we really are!
- Each session begins and closes with a few prayers, which form part of the sacred space of the group.
